## Skills

### Programming Languages

C++ • JAVA • HTML • CSS

### Frontend Frameworks/Libraries

React.js • React Native • Next.js • Tailwind  
CSS • JavaScript

### Backend

Node.js • MongoDB • Express.js

## EXPERIENCE

### SWAYATT ROBOTICS | Full-Stack

Developer Intern

May 2023 - August 2023

- Developed a Django-powered appointment system to streamline new recruit scheduling and enhance internal coordination.
- Collaborated on Swayatt website front-end development, improving UI/UX.
- Collaborated cross-functionally for seamless system integration, boosting project efficiency.

## Projects

### 3-D Portfolio

- Built a dynamic 3D portfolio website using React.js, Three.js, TypeScript, and Vite, featuring immersive interactive experiences. Designed with Tailwind for a sleek look.

### Real Time Chat App

- Built a scalable chat app using React, Node.js, MongoDB, featuring debouncing and sleek Styled Components design.

### MealToGo

- Designed a food ordering app with Google Maps integration for seamless restaurant access and hassle-free dining.
