Profile

I am a Computer Science student studying at Chitkara University. Experienced Developer adept in all stages of advanced web development. Equipped with a diverse and promising skill set. Proficient in technologies, including React, Tailwind, Firebase, and Three JS. Able to effectively self-manage during independent projects, as well as collaborate in a team setting.

Skills

– FRAMEWORKS

React Native => App Dev

React JS => Web Dev

Firebase => Auth and Cloud Storage

Tailwind CSS => Styling

Google Cloud => Google Services & API's

Projects

- Meal To Go:- An industry-level full-stack app. It includes user authentication, a list of restaurants and their menu, also an ordering and paying functionality with all the user data as well as Restaurant data being stored in Firebase.
- Instagram Clone:- This was created using React Native. It is a UI app that is an exact clone of Instagram which includes the stories, posts, and feed functions.
- Hotel Booking App:- A hotel booking app that is constructed using React Native, Firebase, and Google Maps API. This includes a full hotel booking experience from selecting the hotel description and pricing and guest details with integrated Google Maps.
- Free Education:- A website made using HTML, CSS, Bootstrap, Python, and SQL. The main purpose of this project was to access all the free resources and news in one place rather than browsing from site to site. This was selected in OCTAHACKS 4.0.

Education

10 / 2021 – PRESENT RAJPURA, PUNJAB

Computer Science | Bachelor's in Engineering Chitkara University

I am a 2nd year student pursuing Computer Science @Chitkara University Rajpura Campus. I am a passionate programmer and would love to explore different fields of computer science.
